Width: 72"  
Depth: 17"  
Height: 96"

### FREESTANDING MOBILE

Width: 72"  
Depth: 24"  
Height: 79"

## WORKSURFACE SPECIFICATIONS

- Sandwich construction with honeycomb core makes surface solid but also lightweight
- Surfaces finished in green for chalk or white for dry-erase marker writing
- When opened, board gives no less than 6m of writing space
- Stove-enameled aluminum sections and plastic corners are sealed against water penetration
- Aluminum chalk shelf and dust trays come standard with rounded plastic caps
- Rounded corner pieces and end caps are used to ensure maximum safety

## CONSTRUCTION SPECIFICATIONS

- Height-adjustable features of boards and monitors ensure ergonomically correct writing and viewing for teachers and students
- Column board installed in laminate storage units provide a great alternative to traditional built in storage
- Height is such that the unit can easily be moved through doors
- Mobile units can be moved from wall-to-wall within the classroom
- Unit accommodates both interactive boards and monitors as well as traditional writing surfaces
- One or both surfaces can be height adjustable
- Optional power and connectivity via 4 track power system
- Storage can be specified in lower portion to accommodate equipment rack rails

## FINISHING SPECIFICATIONS

- All pillars, frames and visible steel parts are epoxy and powder coated in white-grey color
